## **Founding a B.R.O.T. Community**

### **Steps of Proceeding**

#### **☒ Look for the building site - first**

Our experience shows it favourable for the success. If people do not want the place they will not participate in the project. If starting with the group it may happen, that members need a long time to find the building site or even do not agree with and fall into different parts.

#### **☒ Developing Community**

- Find interested persons  
Reports in newspapers, sheets, mouth telling etc
- First meeting of interested persons: Explain the concept, exchange, question: who will continue – if there are about 1/3 of the definite numbers of the planed apartments we will start building up the start to establish the community
- Begin of about 6 to 9 meetings  
Establish working Groups: Development of community, Building and Finances, Social Aspects, Environment, Spirituality, Children, Statutes
- Formal Constitution of the community
- ...

#### **☒ Start building the house**
